MANSI S SULAKHE

Contact: 7013858839, **Email:** mansisulakhe5124@gmail.com

SUMMARY

Software Developer with hands-on experience in C#, ASP.NET, .NET, and SQL Server, with additional proficiency in Java, JavaScript, Python, HTML, and CSS. Experienced in working with SQL queries, stored procedures, and web-based application development, with a focus on building efficient and maintainable solutions. Strong understanding of Object-Oriented Programming, Data Structures, DBMS, and software development fundamentals, with the ability to analyze problems and contribute effectively to development projects. Keen to take on challenging technical opportunities and continuously expand expertise across modern software technologies.

TECHNICAL SKILLS

- **Languages:** C#, Java, Python, JavaScript
- **Web Technologies:** ASP.NET, .NET, HTML5, CSS3, Web Forms
- **Database Management:** SQL, SQL Server, Stored Procedures
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks
- **Tools & Technologies:** Visual Studio, SQL Server Management Studio (SSMS)

WORK EXPERIENCE

Software Trainee, Lapiz Digital Services – Chennai

July 2026 - Present

- **Web Application Development:** Developed and enhanced web-based applications using C#, ASP.NET, .NET, JavaScript, HTML, CSS, and SQL Server based on project requirements.
- **Database & SQL Development:** Created and modified SQL queries, stored procedures, T-SQL statements, and database operations to support application functionality.
- **Application Development:** Developed and implemented application modules, functional workflows, and project-specific features using C#/.NET and SQL Server.
- **Technical Analysis:** Analyzed application code, SQL queries, stored procedures, and existing workflows to understand functionality and implement required changes.
- **Production Changes:** Implemented and verified production changes and fixes, ensuring the required functionality was maintained across application workflows.
- **Code Maintenance:** Maintained existing C#/.NET code, SQL queries, stored procedures, and application components, implementing required modifications with minimal impact on existing functionality.
- **Application Testing:** Tested implemented changes across application workflows and functional modules to ensure expected functionality before deployment.
- **Issue Resolution:** Investigated application and database-related issues, analyzed the underlying code and SQL components, and implemented appropriate fixes.

INTERNSHIP

Jan 2026 - April 2026

Rebha Technologies – Chennai

- Assisted in developing and testing web applications.
- Integrated and debugged backend APIs for seamless data flow.
- Worked on authentication, data handling, and frontend-backend integration.

CERTIFICATIONS

- Rebha Technologies – Software Development Internship
- Infosys – Python
- Infosys – Machine Learning Techniques
- NPTEL – Responsible & Safe AI Systems
- NPTEL – Introduction to Quantum Computing: Quantum Algorithms and Qiskit

PROJECTS

RCM_AR – Production & Reporting System

- **Web Application Development:** Developed and enhanced ASP.NET/C# applications for Production, Audit, DCS, DPR, and MIS modules.
- **Database Development:** Worked with SQL queries and stored procedures to support application functionality and reporting.
- **Production Support:** Analyzed application issues and implemented fixes across production modules.
- **Report Development:** Developed and modified reports and integrated project-specific reporting requirements.
- **Code Enhancement:** Analyzed existing application logic and implemented new functionality while maintaining existing workflows.

CE_PMIS – Quality & Reporting System

- **.NET Development:** Enhanced C#/.NET modules and SQL procedures for quality and benchmark reporting.
- **Reporting:** Worked on employee details, experience levels, and report data mapping.
- **Issue Resolution:** Investigated and resolved application and database-related issues.
- **Stored Procedure Development:** Modified SQL procedures to support reporting and application requirements.
- **Production Deployment:** Tested and verified application changes before deploying updates to the production environment.

DC_PMIS – MIS & KPI Reporting

- **Application Development:** Developed Productivity, Efficiency, and Quality modules using C#, ASP.NET, and SQL Server.
- **MIS Development:** Enhanced dashboard and MIS reporting functionality based on project requirements.
- **Troubleshooting:** Analyzed application logic and SQL queries to resolve functional issues.
- **Report Optimization:** Modified report queries and calculations to ensure accurate production and KPI reporting.
- **Module Enhancement:** Implemented functional changes across existing modules while preserving established application logic.

XML Validation Utility

- **Utility Development:** Developed a C# console utility for automated XML structure and content validation.
- **Regex Implementation:** Used Regex to validate XML tags, nested elements, and mathematical formula structures.
- **Error Reporting:** Implemented line-level error reporting for efficient issue identification.
- **Pattern Validation:** Designed Regex patterns to identify required XML structures and formatting issues.
- **Testing & Debugging:** Tested the utility with different XML structures and refined validation logic to handle multiple scenarios.

EDUCATION

Aug 2022 - Aug 2026

- Bachelor of Technology in Computer Science and Engineering – Chennai
- Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology
- Distinction - 8.60 CGPA

ADDITIONAL INFORMATION

- **Date of Birth:** 05-12-2004
- **Languages:** Marathi (Native), English, Tamil, Hindi, Telugu
